4021176102745

Mobile hydraulic bearing separator (20 t)

Item: GOLIATH-318
EAN-13: 4021176102745
URL: at.com.es/p/1019388
Brand: Kukko

- For extremely heavy extraction processes
- Easy to use by a single operator
- Modular system expandable with other types of extractors
- All components can be supplied as a replacement part

· Mobile puller for heavy industry, railways, power stations and other applications where large bearings, sprockets or similar parts must be dismounted.
· Thanks to the hydraulic height adjustment and in combination with the mechanical fine adjustment, it can be positioned very easily and precisely by just one person on the workpiece that is removed via the central pressure spindle.
· The mobile Y-shaped support frame with four smooth, lockable swivel wheels allows the puller to be attached easily and comfortably and ensures a safe upright position in all applications.
· The extraction force is applied on the pressure cylinders equipped with a central pressure spindle by means of a two-stage electro-hydraulic pump that is operated with the remote control of the motor.
· The GOLIATH also innovates with other safety devices, such as a mechanical brake and additional hydraulic valves, which guarantee the adjustment of the height of the extractor and safe work, even with maximum load.

Features

Guillotine Ø (mm)	30-250
Reach (mm)	520
Width (mm)	420
Max load (t)	20
Voltage	230

Dimensiones

Item weight (kg)	299,00

Rate

Price unit	envase
Minimum quantity	1
Purchase condition	Multiples of 1
